

Committee Purpose:

The committee is responsible for assisting the board in: (1) its oversight of Connect for Health Colorado’s operations and technology strategy, including significant investments in support of such strategy and (2) operations and technology risk. The committee is responsible to ensure operations and technology strategies, investments and outcomes support the mission, values, and strategic goals of the organization.

The operations and technology committee’s specific accountabilities include:

- Recommending strategies that maintain and improve the operating and technology policies and performance of the organization.
- Reviewing and recommending the long-range (3 to 5 years) operations and technology strategic plan for the organization.
- Reviewing and recommending an annual plan for operations and technology, including the associated budget.
- Monitoring the operating and technology performance against internal trend data and industry benchmarks (Note: this committee along with staff will define which industry benchmarks will be used) Review and recommend KPIs modification for continual process improvement.
- Reviewing the financial aspects of major proposed operating and technology investments, new programs and services, as well as proposals to discontinue key technology, programs or services, and making action recommendations to the board. This will be done in conjunction with the Finance Committee.
- Reviewing the major operations and technology risk exposures of the organization and the steps management has taken to monitor and control such exposures.
- Review or discuss, as and when appropriate, with management, the Company's risk management and risk assessment guidelines and policies

Key Roles and Responsibilities:
