

Dear Sirs,

Following my review, as tabled for the Board Meeting Nov 13 2017. I would like it on record that Connect For Health Colorado acted promptly in resolving the errors which were indicated.

Your team were responsive, engaged and acted in a positive fashion.

They were an absolute pleasure to work with over the issues, and when I reviewed the website today, I noted that the materials being provided to the public seemed all in order.

You are a model of how a responsive public service should act.

Best regards,

Thomas Dyer
