Board Advisory Group Key Discussions

In August, Board Advisory Group:

- Demo'ed the new HSA and Colorado Option filter
 - Positive feedback!
 - Confirmed HSA filter functionality for customers receiving CSR
 - Cost sharing reductions can reduce deductibles to the point of making high deductible plans ineligible for use with a Health Savings Account
- Discussed Pregnancy SEP customer path
 - Group asked for more clarification on the customer path, especially when working with broker and assister, to minimize customer burden
 - We hope to provide an update back to the group during the October meeting

Next Board Advisory Group Meeting: October
25th
