# Changing Coverage: What we know with limited data

(May - July 2023 PHE Unwind Cohorts)

Commercial Coverage (APCD) \* Commercial/Other (HCPF) \* Medicare (APCD, HCPF) \* Don't Know Yet

- We have leveraged our coordination of benefits data insights and May-July 2023 disenrolling Medicaid members compared to updated data from the All Payer Claims Database
- Based on that, we know that 34-35% of individuals have coverage (about 26% commercial and 8% Medicare). **We don't have data/optics on the rest of disenrolling members.**
- This is a lower bound figure, which will only go up with more data:
  - Not all health plans submit data to the APCD (ie: most self insured employers don't)
  - Plans that do participate have a lag between when people enroll and when data are available. The most recent APCD data available is for Aug. 2023
  - Complete figures on transitions to commercial and Medicare coverage not available until at least 6 mo.s after Unwind
- 6,828 enrolled in Connect for Health; 17,700 enrolled into CHP+ from Medicaid
